

### Excellent Performance at an Affordable Price

The industry's top-of-the-line series of insulation blowing machines just got better! The Volu-Matic® SE delivers the outstanding performance and flexibility you expect from Volu-Matic machines in a compact, affordable package. Designed for use with fiber glass, cellulose and rockwool insulation, the SE machine offers the professional contractor multiple rigging options and an excellent return on investment.

#### Features & Benefits

- PTO (power take-off) or gas engine
- Positive displacement blower
- Air bleed system with panel-mounted gauge
- Material control slide
- 4-speed transmission
- Two long-life electric clutches
- Automatic back pressure check valve
- Electrical and mechanical overload protection
- Self-aligning sealed bearings
- Adjustable drive belts
- Wired remote control
- Integrated safety features

#### ALSO AVAILABLE

- Wireless remote control
- Expanded hopper
- Blowing hose
- Couplings and clamps
- Outside blower air intake

# Volu-Matic® SE

## Blowing Machine

#### Insulation

- Fiber glass
- Rockwool
- Cellulose

#### Two Models Available

- VM-SEKA2C – 18-horsepower gas engine
- VM-SEPTO – PTO (power take-off) on truck

#### Specifications

- Typical feed rate:
  - Fiber glass – 25-35 lbs./min.
  - Rockwool – 35-55 lbs./min.
  - Cellulose – 70-80 lbs./min.
- Load height: 59"
- Height: 69"
- Width: 72"
- Depth: 48"
- Weight: 1300 lbs.

### Feature Details

**FULLY SEALED BLOW-THROUGH AIR-LOCK FEEDER** – Seals pressurized air flow to provide installer with a consistent flow of conditioned fiber.

**BLOWER AIR BLEED SYSTEM** – Allows operator variable control of air volume to aid in fine-tuning of air-to-material ratio.

**FOUR-SPEED TRANSMISSION** – Operator-selected speed control for various materials and applications. Allows additional control of air-to-material ratio.

**MATERIAL CONTROL SLIDE** – Secondary volume and conditioning control. Allows operator adjustment of fiber flow to the shredder.

**MECHANICAL OVERLOAD PROTECTION** – Protects internal hopper components and air-lock feeder from foreign objects.

**REMOTE CONTROL** – Gives installer the option of selecting air only or air and fiber from the point of application.

**POWDER COAT FINISH** – Durable long life protection for your investment.

**INTEGRATED SAFETY FEATURES** – Emergency stop switches, electrical interlock, front, rear and side guards.

**SELF-ALIGNING SEALED BEARINGS** – High quality bearings are used throughout the CertainTeed Machine Works product line. They are sealed to keep out dust and equipped with Zerk fittings for proper maintenance.

**ADJUSTABLE DRIVE BELTS** – Special belt-tightening screws make it easy to keep the belts properly tensioned as they wear.

CertainTeed Machine Works offers a comprehensive line of commercial and residential insulation and fireproofing application equipment, including blowing machines, spray foam systems, vacuums and accessories. We provide equipment installation, troubleshooting and repair, custom machine design services, and same-day shipping of spare parts, Graco spray components and Dynasolve cleaning products.
